PRICING: Letterpress Printing

Overview:

Letterpress pricing, like a lot of printing, is priced with this formula:

Materials + Setup + Printing

Materials:

(Paper + Film + Printing Plates)

Paper:

Paper can be the biggest expense and is entirely dependent on the client's taste and the quantity. is PRESS will have recommendations after a consultation but in the mean time you can look at card stock on frenchpaper.com, neenahpaper.com, or mohawkconnects.com

Film & Plates:

(For graphics only. For handset metal or wood type call for a quote.)

\$22.50 = art is 8x11 or less

\$45.00 = between 8x11 & 16x11 *(Call for projects with art larger than 16x11.)*

Setup:

\$60.00 = 1-2 colors

\$90.00 = 3 colors

\$120.00 = 4 colors *(Note this is not "4-color process but 4 spot colors.)*

Printing:

*(Printing pricing is per color per side. Some prints can be "ganged-up" to reduce per-unit cost. Ex. business cards are four per 8x11 sheet. *)*

*8x11 art size
 (max sheet size 12.5x19)*

\$1.00 = per color per print up to 300 count *(*BC's 4-up would be .25¢/ea)*

\$0.75 = per color per print 301-500 count

*16x11 art size
 (max sheet size 20x14)*

\$1.00 = per color per print up to 300 count up to 16x11 art size
 (300 count is the max for anything over 16x11 art size)
